**Sri M. S. Ramaiah**

# The Crucible of Higher Learning.

A residential school where we prepare  
your children for a world of endless possibilities.

## A warm welcome to an exciting future

Navkis PU College for Boys has established itself as a PU College of unimpeachable repute, where we focus on five aspects of a student's holistic development: physical, cognitive, aesthetic, emotional and spiritual. Once your child enters the crucible of higher learning, he's in the company of experienced and dedicated educators who understand the needs of each child. Our educational professionals are fully aware that these two crucial years are a platform that help students take a leap forward into their own future that is brimming with potential.

Navkis offers a residential campus which allows students to immerse in disciplined and focused learning. We offer holistic education which encompasses development of the cognitive, psychomotor and affective domains. The cognitive domain focuses on complex thinking, information processing, collaboration, cooperation, communication and creative skills. Empathy and managing relationships is critical and our residential school builds on the affective domain. Physical fitness is of equal significance and students learn to play both individual and team games which in turn build on the psychomotor domain.

Over the years, we have found that a residential programme like ours helps inculcate a sense of discipline, responsibility, leadership along with values that add to the EQ (emotional quotient) of the student. In addition, we also provide mentoring to students which ensures that students are regularly coached and counselled round the year. Students experience the joys and vagaries of field work, project work, complex assignments and in the process create indelible memories that make these two years such a joy.

It is to this crucible of higher learning, of lived experiences, of knowledge that is taught and shared, that we, Team Navkis warmly welcome you. Come, join us as we embark on this journey together!

**Team Navkis**

## Navkis Educational Philosophy

*"We cannot always build the future for our youth,  
but we can build our youth for the future."*

**- Franklin D Roosevelt**

The quote by Franklin D Roosevelt, the 32nd President of the United States of America, captures the ethos and essence of why we do what we do at Navkis PU College, perfectly. Our educational philosophy has always revolved around preparing our students for the future. Our highly qualified and dedicated educators, teachers and staff are committed to teaching students and urging them to be deeply curious about everything, by creating an environment that encourages out-of-the-box thinking, and guiding them to become self-assured citizens of the world.

### **Our educational philosophy is based on a few principles:**

- Physical, emotional and spiritual - extracurricular activities that transcend sports, and include dramatics, art, debates, cultural ideas and other life skills
- A keen aesthetic sensibility - inculcating an appreciation of the arts through art and music classes
- Highly developed cognitive ability - including debates and elocutions that compel children to delve deeper into a subject through self-learning

Navkis believes that college is a place that provides education and education is the key to life, and the students at Navkis PU College are at that age where creativity and curiosity are natural in young minds. We believe these principles help nourish, and empower our students long after they have left Navkis to become successful, thoughtful, compassionate and creative leaders in their communities.

## Getting to know Navkis

Sri M. R. Ananda Ram, son of the late visionary educationist and philanthropist, Sri M. S. Ramaiah, has always been interested in continuing the rich legacy of his late father. As a patron of the Navkis group of institutions, he envisioned a residential PU College that would provide the perfect blend of higher education and holistic development to students, waking up to infinite possibilities of honing their potential.

The Navkis PU College was started in 2003 where students who enter the portals of Navkis could be encouraged to think, be spontaneous and provide the facilities of a campus where learning is fun and each student is treated with love, care and respect. As a contemporary College, Navkis combines technology and continuous teaching with a faculty that is dedicated, talented, qualified and understands the needs of the next-gen student.

At Navkis, learners discover themselves through education and extracurricular activities that go towards shaping young minds into future leaders.

Welcome to Navkis PU College that harnesses your future potential, today!

### VISION

To provide a safe and dynamic holistic educational ecosystem that nurtures and educates children, providing skills necessary to succeed in an evolving society by allowing latent talent to flourish through learner-centered methodology in a stress-free, supportive and safe environment.

### MISSION

Unwavering focus on children, with an aim to build a modern global citizen who is receptive, confident and clear-headed about his goals and determined to never settle for less in his quest for excellence.

## Chairman's perspective

### Welcome to Navkis PU College for boys!

Let me begin by expressing my immense gratitude for choosing Navkis to be the institution for your child as he stands on the threshold of life with infinite possibilities. I am humbled by the trust you have placed in me and my team and continue to support our endeavour to bring to you one of the finest residential PU colleges in the state of Karnataka.

I belong to a family of educators and philanthropists, and I understand that a PU college is critical to your child's future. At Navkis, we strive to ensure that all the children entrusted in our care are imparted knowledge with holistic learning that helps in shaping their personality, and thrive in a world that is brimming with so many different paths to fulfillment and success. As our erstwhile President APJ Abdul Kalam said and I quote, **"education is the most powerful weapon which you can use to change the world."**

I endorse his sentiments and I believe that the right educational grounding is imperative if we want to give our children the opportunities to blossom as thinking, capable beings. I welcome all your children to Navkis and am positive you will find the Navkis environment enabling learning and nurturing talents that give your children every opportunity to reach their full potential and march forward with confidence and pride.

**Sri M.R. Ananda Ram**

Chairman

## Principal's message

*"By education I mean an all-round drawing of the best in child and man in body, mind and spirit."*

**- Mahatma Gandhi**

In my more than 32 years of experience as a Principal, I believe that education is the key to bring about socio-economic transformation in society. I am proud to be associated with Navkis and to have created one of the best residential PU Colleges in the state of Karnataka in a short period of time. The patronage of the school by a family of renowned educational entrepreneurs and philanthropists who are determined to keep the light of knowledge as lit by the late Sri M.S.Ramaiah, keeps me and my team here, inspired and motivated to give to the students, our best every single day.

My goal at Navkis is to ensure academic excellence and equip our students for the gruelling Pre-University examinations, entrance tests to professional courses and various other competitive exams, with a holistic approach that blends teaching, learning and activities that prepare our youngsters to navigate the challenges with confidence and clarity. My team and I understand that these are critical years and to achieve a balance between learning and playing, discipline and distraction, requires us to be informed, understanding and yet assertive. It is our quiet resolve to continue to give our students the best of our time and knowledge and provide an enabling environment that moulds character.

Thank you for choosing Navkis PU College. On behalf of my team, I am delighted to welcome you and your child to our beautiful campus, where he will learn to thrive and I can assure you that your choice will be a rewarding experience.

**Mr. Lakshminarayana P**

Principal

## The Campus

Nelamangala, located north of Bangalore, is home to Navkis PU College, and is an ideal place for education away from the hustle and bustle of the city. The 5-acre campus, located close to the industrial zone, near the junction of the Bangalore-Mangalore and Mumbai-Chennai highways, is easily accessible from anywhere in Bangalore.

As a residential college, our campus design and planning is modern, yet exuding warmth and makes students feel safe and secure in an environment that is academic and welcoming. Our student accommodation includes spacious and well appointed rooms besides providing for a host of amenities including warden supervision, kitchen infrastructure for well balanced nutritious meals, regular medical checkups, and state-of-the-art gymnasium. The Academic block comprises two blocks, which interconnects with the Hostel block and the campus is self-sufficient catering to all of the students' needs.

## Well appointed infrastructure

While planning, designing and building the college campus, the patrons of Navkis wanted only the very best for the students who would be a part of the residential college in Nelamangala. The design and layout reflect a contemporary and forward-thinking college equipped with everything that makes teaching and learning a joy. Its campus encompasses:

- Library - books on a variety of subjects that help students expand their outlook and trigger ideas.
- Classrooms - fully furnished spacious classrooms that are easy to move around in.
- Labs that are equipped with the right tools for students to conduct their experiments and learn about the different and fascinating aspects of different subjects.
- Chemistry lab
- Physics lab
- Biology lab
- Computer lab

- Playground and sports – students have a choice of sports that they can play in a large outdoors playground. Expert coaching is provided for a variety of sports including cricket, football and badminton. Besides outdoor sports, our students also have the opportunity to play chess, carrom board, table tennis among other indoor sports.
- Other facilities include games rooms, yoga hall, seminar hall, discussion rooms, staff room and a canteen.
- Infirmary – an in-house infirmary which tends to the healthcare needs of the resident students. It is equipped with a bed, emergency medicines, and a first-aid kit. The College is associated with a well-known hospital in the locality, five kilometres away from the campus. Regular physical examinations are administered by doctors from Ramaiah Medical Hospital.
- Internet – resident students can access the internet facility available in the library to browse the Net for knowledge on relevant subjects. In fact, during the pandemic all programmes were offered to students using Upswing as a platform for online learning and support.
- Residential facilities: Students at Navkis PU residential college enjoy a holistic academic environment where every need of the student is catered to.
- The residential rooms are spacious and house 4 to 6 students in each room. Each room is furnished with individual beds, table and individual storage space for clothing.
- A warden and the resident teachers are responsible for the students' safety, guidance and care.
- Hygienic kitchens, laundry, and housekeeping is taken care of and the rooms are scrupulously maintained.

We will be happy to take you on a guided tour of the campus when you visit us. Please do not hesitate to contact our admin office and book an appointment with your child.

## Safe environment

In times of a pandemic we are all required to be vigilant and cautious, and given that we are managing young students, it's incumbent upon us to take every precautionary measure to ensure the safety of your ward.

Our trained staff and faculty have been sensitised and trained to provide the best care and learning environment in these anxious times. We ensure that our campus including classroom, labs, areas where students meet and play, toilet facilities, gyms, rooms, kitchen and offices are sanitised frequently to pass the stringent safety and hygiene norms. All our teachers and staff have to adhere to strict guidelines of wearing masks, and are trained in social distancing guidelines.

Our campus security is monitored by a 24/7 security staff and any breach of safety rules by students or parents is considered a serious offence. We follow strict visiting hours to maintain and ensure safety and security of the students in our care.

## Affiliation

Navkis PU College affiliated to the Department of Pre-University Education offers 2-year Pre-University courses, which sets the path for students to pursue higher education and specialisation. We offer two major academic programmes in Science and students can choose based on their interest.

Each combination offers four core subjects within the area of their choice in addition to language studies. While English as the first language is mandatory, students can choose from Hindi, Sanskrit and Kannada as their second language.

### Streams offered

- **PCMB** - Physics, Chemistry, Mathematics & Biology
- **PCMC** - Physics, Chemistry, Mathematics & Computers

- Forensic Chemistry
- Home Science
- Nutritionists and Dieticians
- Food technology
- Agriculture
- Horticulture
- Environment Science
- Fishery
- Forestry
- Wild life
- Oceanography
- Forensic Science
- Anthropology and other disciplines

## Going digital

In a world of convergence, digital technologies are making headway in every domain including education and learning. The new normal in the world of education is the happy blend of face-to-face interactions in classrooms and online learning through digital learning platforms. Given the volatile nature of the world outside, in the Year of the Pandemic in 2020, it was our early adoption of these technologies that ensured learning was continuous and our faculty was able to leverage these online digital learning platforms to impart crucial learning and our students adapted to this new normal admirably.

## Our expert faculty

Highly qualified, experience and committed teachers and educators are the backbone of any educational institution. For students to learn well and fall in love with a subject, the teacher is crucial, in whose capable hands students experience the joy of learning and understanding the nuances of a subject well.

Our faculty are not only highly qualified but are competent and knowledgeable in their chosen subject of teaching and are constantly upskilling and attending workshops that enhance their knowledge and update their teaching methodologies.

At Navkis, we understand the criticality of these 2 crucial years that provide the springboard to children as they pursue higher education in colleges and universities in India or abroad. Our faculty is committed to prepare students for the next phase and alert to their individual needs and capabilities and guide them with a firm, capable and sensitive hand, while opening up a world of endless possibilities.

For admission to Navkis PU Residential College, please fill the Application Form available at the office, and submit the same with copies of X State Board/ CBSE/ ICSE/ or any equivalent examination marks card and submit at the office. Alternatively, you can also fill the online application form available on our website: [www.navkisboys.com](http://www.navkisboys.com). Admission results will be declared as per the PU Board norms.

## Eligibility Criteria

Candidates who possess the following minimum educational qualifications shall be eligible for admission to the NRPUC two year Pre-University Course:

### Candidates should have passed:

- The Karnataka Secondary School leaving Certificate Examination. OR.. Any other examination recognized by Karnataka / other States as equivalent to the Karnataka SSLC / CBSE / ICSE exam, for the purpose of admission to the Pre-University Course. (Migration Certificate is a must for candidates from other States).
- Candidates from abroad shall be admitted to the course only on production of a provisional eligibility certificate from the Director, Department of PU Education. Along with the application form enclose a Photostat copy (duly attested by a Gazette Officer) of the pass certificate obtained at the qualifying examination. However, candidates from State / U.T. outside Karnataka are governed by the conditions specified in Go No. Ed / 45 / SHH-95, dated 25-5-95. The PU course is spread over for a period of two academic years, commencing from June and ending up with annual exam in March.
